Thanks very much to everyone for contributing to a record turnout in unusually good weather conditions. This is not normal for my events. However, and there is usually a however when I'm involved.., there was a bit of a challenge in finding the second control on the short and long-O courses. Many apologies to those who spent a fruitless few (or more) minutes looking for a feature that was there (honest) but which had a rather inadequate description. Still, the views were nice.

Many thanks to Gwenllian (whose finish time I failed to record) and Mair for their help and to the Darlings and anyone else that knows me.

I still can't believe that it didn't rain.
